WINCHESTER REGIONAL AIRPORT (KOKV) - RUNWAY CONSTRUCTION PROJECT

FINAL MARKING & SEEDING COMPLETED!

On behalf of the Winchester Regional Airport Authority we are pleased to inform you that the runway is open for normal operations.

The original runway had design flaws and there was no documentation on how the first 4,500' was constructed. In addition to rebuilding the runway, the airfield lighting was upgraded to match the standards for the Glideslope approach system.

Critical items involving the runway construction that necessitated closing the runway have been completed. There will be men and equipment still working in areas on the field completing grading outside the runway object free areas and fine tuning the new airfield lighting. Continue to exercise caution when conducting airfield operations until the project is completed.

We sincerely appreciate everyone's patience and cooperation throughout this major capital improvement project.

If you have any questions or need additional information, please feel free to contact our office (540) 662-5786 or email me: okvmanuel@comcast.net

Thank you again for your continued support in Winchester Regional Airport.
Serena (Renny) Manuel, Executive Director
