On Wednesday February 24<sup>th</sup>. 2016, Essex County residents suffered considerable damage due to a tornado that cut a swath through the county from south to north. Some lost everything. Some homes were completely destroyed and blown away not to mention personal physical injury. Some of these residents had no insurance and are left with nothing. The immediate outpouring of support from the local community has been impressive but going forward they will certainly need help for a long time to come. Any donation you could provide to help them get back on their feet would be greatly appreciated. [We have arraigned for 100% of the donations to go directly to those in need.](#)
